

Perinatal Care of Puppies and Dam Form

Breed:

Age:

Sexes:

Color:

Weights:

Diet:

1. When were the puppies born?
2. How many puppies were in the litter? Did all of them survive?
3. Was this the dam's first litter?
4. Did the dam have health problems during the pregnancy?
5. What was the dam's diet during gestation?
6. Was the dam fully vaccinated before she became pregnant?
7. Was the birth natural or Caesarean section?
8. Has the dam had a physical examination or laboratory work up recently? If so, please have results available if you wish to discuss them.

Please list the topics or concerns that you would like to discuss, in order of priority:
